✓ Thermally Efficient

✓ Building Control Compliant

# Add a lantern to create a prestigious looking orangery

Using a warm roof construction, this solution is probably the most efficient flat roof on the market thanks to our extensive R&D work. The use of Icospan will enhance the look and feel of most extensions.

**U-Value: 0.17**  
(0.15 achievable when required)

**Set fall 1:40 for water drainage**

**Can be supplied plain or with a lantern/skylight**

**Max. projection: 4.0m as standard**  
(Larger projections can be achieved)

---

**The Icoroof uses fully recyclable 155mm EPS insulation & FSC Certified timber.**
